19 February 1951

Office of General Counsel 25X1A

Memorandum of Agreement -

1. Subject contract dated 8 February 1951 has been reviewed by the Office of General Counsel and is approved as to legal form, subject to the following comments:

2. It is not known whether the name indicated above is a pseudonym but, in any event, it would appear that this contract should be classified.

3. We have, in the past, approved the legal form of a multilith form of agreement which appears to be similar to the subject contract and designed for the type of activity in which [ ] will engage.

25X1A

4. It should be noted that the subject contract does not provide for payment of overtime under Article III, nor does it indicate under Article VII that the withholding of tax may be undertaken by the Agency at the contract employee's option. These two changes were considered necessary amendments incorporated in the multilith form and you may wish to use them in this agreement.

5. If the form of this agreement is changed, it should be returned to this office for approval.

6. Since it is our understanding that the employee will be paid from unvouchered funds, and it is assumed that this agreement will be submitted to Mr. [ ] for execution as the "Authorized Contracting Officer," there should be some indication of the project to which funds expended under this agreement will be charged.
